

Amirali Khodaei

FULL-STACK DEVELOPER

Tehran, Iran | +98 920 525 8522 | amiralikhodaei324@gmail.com | github.com/amiralikhodaei1384

Computer Engineering student at **Sharif University of Technology** — Iran's leading engineering school — and a top-ranked national university-entrance-exam candidate. Backend-focused developer with hands-on experience building full-stack web applications and a private blockchain platform in **Python / Flask**. Strong programming foundation across Python, Java, and C, with solid command of data structures, algorithms, and concurrent programming.

EDUCATION

Sharif University of Technology — Tehran, Iran

2023 – Present

B.Sc. in Computer Engineering

7th semester

- National University Entrance Exam (Konkur) 2023, Mathematics & Physics track: **Rank 22 in Region 2** and **Rank 67 nationwide** — among the highest-ranked candidates in the country.

EXPERIENCE

ITOrbit — Technical Department, Tehran

Aug 2026 – Now

Backend Developer

- Developing Java-based web applications for **online education platforms** for multiple universities.
- Building backend software systems for **multiple banks** as part of the technical unit.

Padideh Shimi Paydar Holding (PSP) — Planning & Strategy Department, Tehran

Feb 2026 – Aug 2026

Software Engineer

- Built an end-to-end, blockchain-based **idea-submission platform** that establishes verifiable authorship and protects users' ideas from being copied or stolen.
- Designed and implemented a **private (permissioned) blockchain** administered by trusted company managers, using **Flask** for the backend and HTML, CSS, and JavaScript for the frontend, removing the high transaction fees of public blockchains while keeping records tamper-evident.

PROJECTS

Student Freelancing Platform (in progress)

Flutter, Dart, React, HTML/CSS, JavaScript

- Building a freelancing marketplace tailored to university students (in the spirit of Handshake) that connects students with short-term gigs and projects.

Idea-submission portal

Python, Flask, HTML/CSS, JavaScript

- Developed a platform that rewards users with prizes for submitting innovative ideas aimed at enhancing the company's profitability.

Gwent — Multiplayer Card Game

Java, JavaFX, Multithreading

- Recreated the Gwent card game with online multiplayer; implemented multithreaded networking to manage concurrent players and real-time game state.

Atomic Bomber — 2D Game

Java, JavaFX

- Developed a 2D arcade game, handling the game loop, rendering, collision, and player controls.

Store Management Database

SQL

- Designed and implemented a relational database for a retail store, including schema design, relationships, and SQL queries.

TECHNICAL SKILLS

Languages

Python (Advanced), Java (Advanced), C (Advanced), Dart, JavaScript

Backend & Web

Flask, REST APIs, HTML & CSS (Intermediate)

Mobile

Flutter / Dart

Databases

SQL (Proficient)

Tools & Concepts

Git (Expert), Object-Oriented Programming, Multithreading / Concurrency, Algorithm & Data-Structure Design, Blockchain

TEACHING & ACTIVITIES

- Teaching Assistant, Sharif University of Technology** — Advanced Programming (Java), Discrete Structures, and Fundamentals of Programming (Python).
- Private Tutor** — High-school Discrete Mathematics & Geometry (5 months).

LANGUAGES

Persian — Native | English — Upper-Intermediate
